Hello world

12th March 2019   Jay Mehta (http://blog.jaymehta.co.uk/author/jaymehta/)   Leave a comment (http://blog.jaymehta.co.uk/2019/03/hello-world/#respond)

Welcome to my new blog!

I'm an NHS doctor, an app developer and a general technophile, and I recently decided to get into writing as a way for me to organise my thoughts and share my half baked ideas with the world.

One of the commonest criticisms I have of clinical IT systems in general is that the lack of "user centred design", so if you read my blog regularly you'll see lots of wireframes and prototypes on what I would do if I had the ability to start over.

I'll also blog about other things that pique my interest, whether that's on sharing of healthcare information, data privacy for patients, or just the latest iPhone. I'm also open to writing about other topics if there's interest!

Thanks for taking the time to check out this site, I'm hoping to have something new up at least once a week, and please do feel free to share, leave comments and ping me questions – I'll do my best to reply to them asap.

IMAGE ISSUES

The images listed below are being resized to fit a container. To avoid serving oversized or blurry images, try to match the images to their container sizes.

Note: It's not always easy to make this happen, fix up what you can.
